DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Applicant's arguments, see page 9, filed January 12, 2007, with respect to claims 1-20 have been fully considered and are persuasive. The prior art does not teach or suggest an apparatus for controlling operations of a synchronous semiconductor memory device, wherein each operation is achieved by a plurality of internal instructions, comprising: a reference clock block for receiving an external clock and outputting a plurality of delayed clock signals; and a control block, in response to the plurality of delayed clock signal, for outputting one of the plurality of internal instructions at a first predetermined timing which is earlier than the timing of starting the operation according to an additive latency.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
